

IMPORTANT INFORMATIONS

WORKSHOP ON RECENT DEVELOPMENTS IN BEAM DIAGNOSTIC SYSTEMS (September 23, 2022 - IUAC, New Delhi, India)

GREETINGS AND WELCOME!

We are pleased to announce the upcoming Workshop on Recent Developments in Beam Diagnostic Systems (DBDS-2022), to be held in-person on September 23, 2022 at Inter University Accelerator Centre, New Delhi, INDIA.

DBDS-2022 is dedicated to sharing knowledge and experiences, exploring innovative ideas and to discuss the latest developments in the area of beam diagnostics systems. Scientists, Engineers, Technologists and Research Scholars working in the field of accelerator science and technology, are invited to participate. There will be invited talks by the eminent experts of the National and International Accelerator Laboratories.

The workshop will cover the heavy ions and electron beam diagnostics and it will focus mainly on the following topics.

1. Latest developments in transverse and longitudinal beam diagnostics and control.
2. Application of Artificial intelligence and machine learning in beam diagnostics.
3. New techniques for beam diagnostics and related instrumentations.

Registration:

There will be no charge for the Workshop registration but the total number of participants is limited. Selection of the participants may be done by the Workshop registration committee and it will be final. Selected participants may be informed through email on or before 2nd September, 2022 and the list of participants may be updated on the Workshop site on or before 3th September, 2022. It is mandatory for all participants to fill the registration form.

Eligibility:

Scientists, Engineers, Technologists and Research Scholars working mainly in the field of beam diagnostics, accelerator science and technology, are invited to participate.

Travel and Accommodation:

The participants need to arrange their own funding for travel and accommodation. The organizer will provide the Food and registration kit only to the Workshop participants. **Delegates are requested to book the hotels/guest houses as early as possible and may send their travel plan details on dbds.iuac@gmail.com latest by September 7, 2022.** The request for guest house booking will be received on first come first serve basis.

Scientific Program:

The program schedule will be updated on or before 7th September, 2022.

Cautionary measures related to COVID-19:

Please be informed that masks are still necessary in most of the places. If you are tested positive for Covid-19, for safety of other participants, we may ask you to refrain from joining in-person the Workshop but we may provide online link to you to access the Workshop remotely.

Group Photograph.

There will be a group photograph for the Workshop participants on 23rd September, 2022.
